

Clubhouse Report

The clubhouse has been kept in a reasonable state of repair and is still looking presentable.

Some repairs were carried out through the year most very minor and at no cost to the Sailing Club. Some cost was incurred when we replaced the centre support for the lounge balcony.

For the future it is intended to bring forward a report on the cost of revamping the race office and it would be prudent to carry out some internal painter work to the entrance hallway and stairs. Next summer some exterior painting will be required to the window frames and window cills.

The painting work could be carried out over a few days using voluntary labour from club members. I believe this will be better as it will clearly cost less and can be carried out timeously as local tradesmen are extremely busy and can't guarantee when they will be available.
