

## Recreational Sailing Guidelines:

1. SIGNUP for a place on the event via the website calendar - [www.chanonry.org.uk/calendar.html](http://www.chanonry.org.uk/calendar.html) - in TEAMUP.
2. Sessions are aimed at Members who are not comfortable going on the water without support from a RIB.
3. Weather will be monitored in the run up to a session and unhelpful conditions, especially strong winds, will result in cancellation at least 24 hours beforehand. Refer to the Chanonry Sailing Club Facebook group if you use Facebook.
4. The RIB Support Volunteer can cancel the session on the day in the light of adverse conditions; e.g. strong or very light winds.
5. Arrive ready to go on the water, or change discreetly at the harbour perhaps in your car.
6. Use your own boat(s) - club/shared boats are currently out of bounds.
7. We are all individually responsible for complying with the SG's requirements and Members will be responsible on the day to form groups of up to five households that **do not mix**.
8. The dinghy park, car parking area and slipway are public areas and physical distancing must be maintained.
9. Launching and recovery to be carried out by the individual sailors without help unless by someone in their own household or bubble.
10. Boat rigging and put away to take place in the Dinghy Park, moving smartly to the Dinghy Park after washing down.
11. RIB Support Volunteers can not get involved with more than four other households in a day so no more than four other households can help with the launching and recovery of the RIB. Generally five people are required to recover the RIB safely. Physical distancing will be maintained by using a rope attached to the trailer for 2 helpers well spaced, a 3rd steering at the jockey wheel and the RIB crew at the stern of the RIB. Refer to the attached pdf file for a pictorial representation of this.
12. On the water is viewed as a public open space and as such there is plenty of space to physically distance. The RIB crew may lay training marks to designate the limit of the sailing area (there are no race marks laid at present).
13. The RIB provides support while maintaining physical distancing. In extremis a sailor would be taken aboard the RIB for as short a time as possible.
14. After putting boats away Members should leave the club.
